Global leaders in workplace barrier protection

WORKPLACE SAFETY SOLUTIONS ACROSS THE WORLD

A-SAFE are the **inventors** and manufacturers of fixed polymer safety barriers – the smart, modern, cost-effective solution for barrier protection in the industrial workplace. Industry leaders since the company was formed in 1984, **A-SAFE** products are made from **Memaplex™**, a robust and ultra-strong blend of polyolefins and rubber that, through a unique manufacturing process, gains an built-in memory and flexibility that allows it to absorb, dissipate and reform following impacts.
