- Reduced litigation costs
- Improved brand image and reputation

OUR SERVICES

Specialist floor coating application

Bonasystems Grip The market-leading anti-slip treatment for tiles, stone, and other cementitious hard surfaces. With correct maintenance, effective for up to five years.

Bonasystem Seal Protects porous stone and ceramic flooring from staining, soiling and water or salt ingress – ideal for application in all high footfall areas.

Professional Floor Deep Cleaning

Professional deep cleaning using Bonasystems' advanced products to maintain the anti-slip surfaces we install – or any other floor surface.

Slip Risk Assessments

Slip testing using the pendulum technique – used by the HSE – to give you clear understanding of slip and trip risks, and what to do about them.

NEW PARTNERSHIP – SAME GREAT SERVICE

CleanSafe Services (UK) Ltd is working in partnership with Bonasystems to make sure its teams continue to deliver a seamless and high quality floor coating application and cleaning service, with significant extra benefits for customers.

Steven Phillips, Bonasystems MD

"With CleanSafe Services as our long-term service partner, we can focus on developing and manufacturing even more exciting products that will be of great benefit to our customers."

Steve Broughton, CleanSafe Services MD

"Bonasystems' customers will be served by a floor treatment specialist that knows its products intimately, and that shares a strong belief in expertise, professionalism, and excellent customer service."

YOUR FLOOR COATING AND CLEANING SERVICE CONTACTS

Regional managers from Bonasystems have transferred to CleanSafe Services, so our floor coating and cleaning customers have continuity of service from trusted experts.
