THE LIGHTEST GORE-TEX® FLAME PROTECTON GARMENTS EVER!

Heavy rain in the morning. Rising temperatures in the afternoon. Long working days. It's tough to work outside in hard weather conditions. Fristads' new shell garments are the lightest GORE-TEX® arc and flame protective garments on the market. They stay durably waterproof and reliably protect you against thermal and electric hazards. Maximum comfort and flexibility combined with the highest protection level.

- Extra high electric arc protection
Open arc: 49,1 cal/cm²
Box test: Class 2 = 7 kA
- Heat and flame protection
- Electrostatic discharge protection
- Heavy welding class 2
- Molten metal protection
- Liquid chemicals protection
- High visibility certified
- Certified rain garments
- Lightweight
- Flexible
- Metal free
- Waterproof
- Windproof
- Breathable
- Dirt and oil repellent
- Approved for 30 washes at 60°
- Inherent flame protection

GXE is the new lightweight and flexible GORE-TEX® 2-layer material made of polyester and antistatic fibres with a flame-retardant and electric arc-protective laminate. The material has inherent flame protection in the sense that the flame-protective performance is included in the laminate. The fabric's protective performance is exactly the same on the first day of usage as it would be after years of using and washing the garment.

OUTSTANDING PROTECTION AND HIGH COMFORT

The new Fristads GORE-TEX® Multinorm garments meet most risk assessments and provide extraordinary electric arc protection. The flexible lightweight material offers outstanding comfort and freedom of movement. In addition you can use the garments all year round, in all types of weather. The fabric remains light and flexible even in wet conditions.
