## Course description

This is Unit 2 of the National General Certificate. To ensure coherent understanding of the syllabus, we apply a combined learning approach consisting of 42 tutor-led hours and 26 hours of home study.

Delegates will develop a sound understanding of how to control workplace hazards across various work-related activities. These additional skills can be applied to either an office environment or in more complex industries.

## Who should attend this course?

People who have a key responsibility for health and safety at work, such as safety advisors, managers, supervisors or nominated competent persons.

## Course content

This is Unit 2 of the full certificate and the elements covered within the syllabus are:

- Element 1 – Workplace Hazards and Risk Control
- Element 2 – Transport Hazards and Risk Control
- Element 3 – Musculoskeletal Hazard and Risk Control
- Element 4 – Work Equipment Hazards and Risk Control
- Element 5 – Electrical Safety
- Element 6 – Fire Safety
- Element 7 – Chemical and Biological Health Hazards and Risk Control
- Element 8 – Physical and Psychological Health Hazards and Risk Control

## Key benefits

On completion of this course, delegates will have an understanding of:

- Workplace hazards and methods of control, for example, working at heights and manual handling.
- Workplace transport operations and the factors which may be hazardous.

- Organisational responsibilities for the health and welfare of employees, such as workplace tasks to be considered under the PUWER regulations.
- Fire and electrical hazards and control measures.
