

Enhance Worker Safety

with the right PPE, reducing risk and injury

The Globus **360 Safety Programme** is a free no-obligation service, to help assess and identify the specific safety equipment needs for a particular site or workplace.

Aims of 360 programme

The service includes a thorough evaluation of the site's hazards, applications, potential risks, and workforce requirements to determine the appropriate PPE solutions. This assessment will help ensure that the right PPE is provided to protect workers.

Benefits

We also go the extra mile to ensure our recommendations align succinctly with your broader business objectives; from simply improving site safety or gaining a cost-saving to lowering your carbon footprint and meeting your business sustainability goals.

Create an injury-free environment

Addressing challenges and issues to reduce incidents and injury within the workplace with high-performance PPE

Increased compliance

Comfortable, stylish PPE for the right application

Improved worker morale

Satisfaction from safe working, with fit-for-purpose PPE

Enhanced productivity

Giving workers the confidence in wearability and also through extended product use

SKU reduction

Reduced inventory and PPE types/ variants, plus predictive PPE expenditure

Cost saving

Using the correct PPE can save thousands of pounds on injury costs and missed workdays

On-going support function

Toolbox awareness talks, specialist training, logbooks and regular innovation forums

Environmental benefits

Lower carbon footprint, reduced wasted PPE and disposal costs via improved PPE longevity

Value-Added Approach

What to expect in a joint value-added approach with Globus?

Our collaborative approach with a Globus safety specialist, incorporates a bespoke site survey, reporting and implementation of high-performance safety solutions. The Globus Support Service will also create transferable 'Best Practices' for other PPE.

This programme is designed to make measurable improvements, underpinned by training and a bespoke support package.

How we do it

Globus recognises that every business is different and so are their safety needs. The personalised and tailor-made assessment provided can be adjusted to align with your specific business requirements.

A dedicated safety specialist from Globus will collaborate with you to develop a timeline, ensuring adaptability and flexibility to cater to your needs.
